THE CREATE
MEDIUM

Touched by time

Weathering. Erosion. Characterful decay.
Abandoned factories, old barns or derelict buildings can turn into real gems over time. Just like this deserted coal mine site. Feel how time stood still and how nature is slowly taking over. This weathering is what inspired us in the design of **THE CREATE** collection. The unique look of natural decay has been caught in the different patterns of MEDIUM, SMALL & LARGE.

Inspiration
is everywhere

We tell a story

MEDIUM, SMALL & LARGE are part of **THE CREATE**. Collections that tell a story and add value to your space. You can place an emphasis on what you want with the different tonalities. The pattern in the carpet grows and slows back down, as if the vegetation chooses its own path.

The best inspiration is often found coincidentally in nature.

Let's tell you all about it

THE CREATE is more than just a collection. It's designed to be used creatively. The collection comes in three versions: **LARGE** displays a big colour pattern, **SMALL** has subtle accents in the same accent colour and **MEDIUM** is the neutral, grey base tile. LARGE and SMALL come in six colours, with grey as a neutral undertone.

Within each colour group, you can choose three designs to play with. Complete the puzzle with just one pattern or combine two or three.

Time to play

MEDIUM, SMALL & LARGE thrive in spacious rooms, allowing you to divide the space in different areas.

Make a preliminary design and play with transitions. Combine neutral areas with coloured spaces. SMALL is the perfect changeover between MEDIUM and LARGE. In a seating area, under a table or desk: this is where LARGE is at its best.

By laying THE CREATE tiles in brick or checkerboard pattern, you create a fluid and faded transition. But there are no limits to creativity: MEDIUM, SMALL & LARGE lend themselves perfectly to various laying methods.

Tip: make a preliminary design of the laying method

Create a corridor

You can create a corridor with one single colour. The transition can be clearly defined or more playful. The possibilities are endless.

Highlights

LONG LIFESPAN

Our durable carpet tiles have a long lifespan thanks to our solution dyed yarns, **high performance quality** and good maintenance programmes, fulfilling the **EN1307 – class 33** classification. All this results in a **15-year warranty**.

70% RECYCLED

BITBACK

BLOQ uses **Bitback**, Modified Bitumen, which consists of 70% recycled content.

Tiles made with Bitback deliver great acoustic results such as **high sound absorption and insulation**, as well as **noise reduction**. Therefore carpets made with this sustainable backing contribute substantially to personal health and comfort.
LIGHT REFLECTANCE VALUES

Light Reflectance Value (LRV) is a scale that measures visible and usable light reflected from an illuminated surface. The percentage identifies how much light a colour reflects or absorbs. 0% reflects no visible light, 100% reflects all light.
