SHAPES
HEXAGON & TRAPEZE

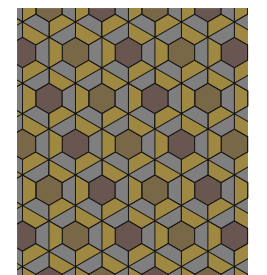

Play with shapes

SHAPES are two new tile options: **HEXAGON** and **TRAPEZE**. These two polygonal shapes offer countless possibilities, on their own or together, to create the most beautiful arrangements. Create unique patterns starting from mathematical repetitions or let your creative intuition guide you using the **colours of all our collections**.

Because of their sound absorbing qualities and best results in fire safety, these high-performance carpet tiles are ideal for office projects. Our SHAPES tiles comply with the stringent regulations for the commercial market and are produced following the strictest standards in sustainability.

HEXAGON & TRAPEZE

Inspiration
is everywhere

Sometimes even beneath
our very feet

Shades of creativity

Although the SHAPES tiles are available in almost all of our collections, they work extremely well in the solid, pastel hues of the **CANVAS** collection. The solid character of each colour adds to the uniqueness of the shape and patterns. Discover all **other product options on p. 26.**

TRAPEZE
CANVAS

Hexagon

The hexagon shape expresses playfulness and balance at the same time. It creates a beehive pattern that combines serene order with a touch of nature. A shape you've undoubtedly already seen in ceramic tiles, now also setting the trend in carpet tiles.

Thanks to the endless puzzle possibilities, you can either go for creative and exuberant patterns reminiscent of flowers or the sun, as well as mathematical repetitive patterns. Working in rows creates a sleek effect and with a 3-colour transition you can even define zones in your office area in a non-intrusive way.

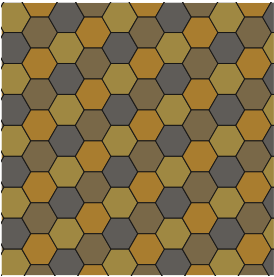

CANVAS HEXAGON 140, 970

Hexagons are available in other products & colours.

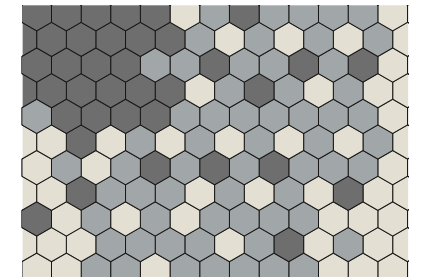

Playfulness and balance at the same time

CANVAS HEXAGON 935, 815, 230, 225

Mark off areas in a landscape office by working with different colours.

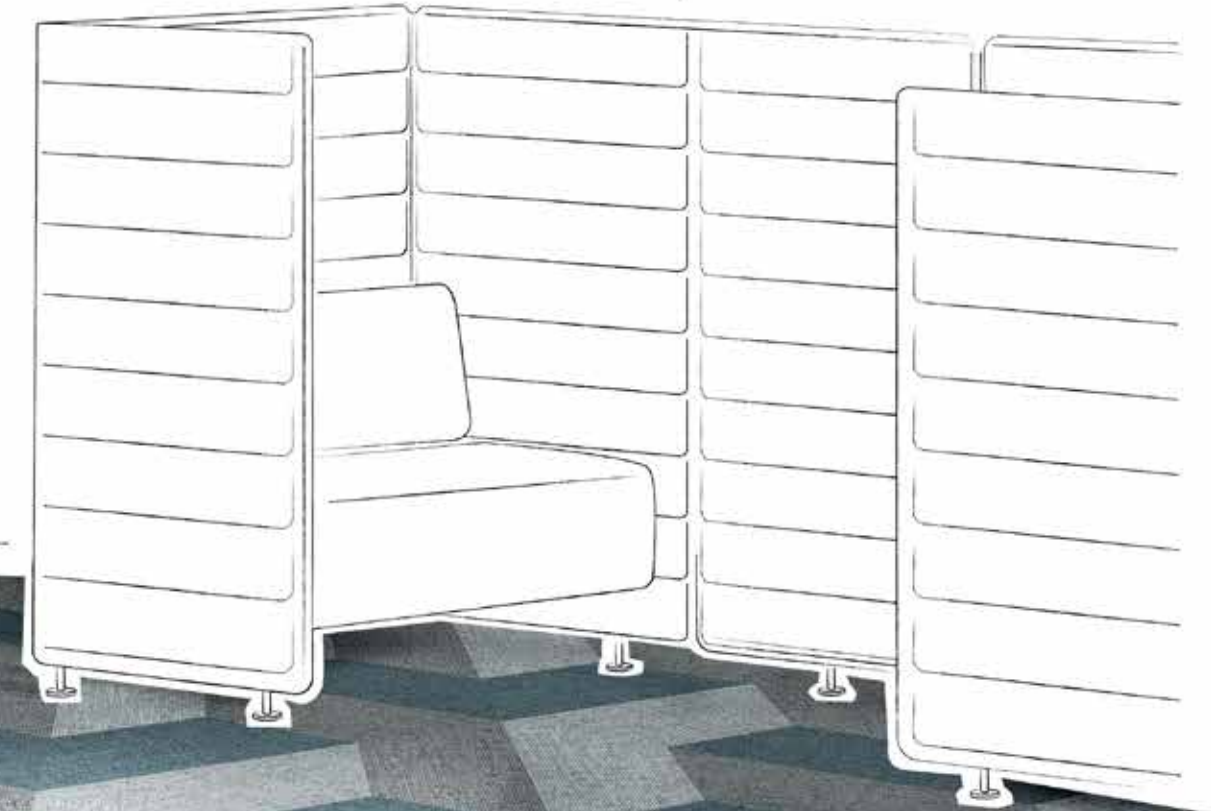

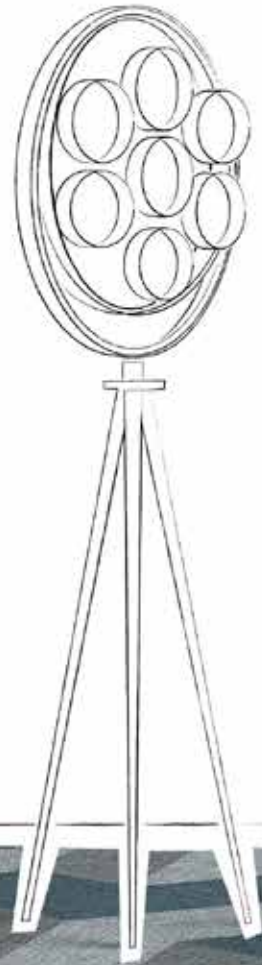

CANVAS HEXAGON 960, 955, 140

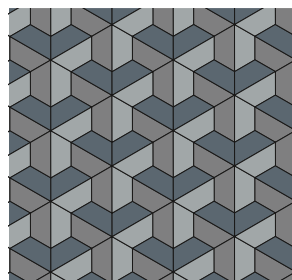

Trapeze

Discover the multitude of possibilities of the trapeze: crisp linework with a dynamic effect, giving it an extra touch. Create surprising patterns in all kinds of colours matching the desired atmosphere: subtle and sleek, or striking and in motion. For rooms with personality.

This versatility extends to the many colour options. Whether you go for a neutral colour palette with matching shades or an interesting play of contrasting colours, you can create different atmospheres, ranging from subtle and calming to creative and energising.

How to mix more than three colours

Both SHAPES are made to combine colour without difficulty. If you start from a particular mood board or interior design style, you will easily find hues that match. Or you can be inspired by timeless themes such as the natural elements, the seasons of the year or even landscape types or holiday destinations.

I want it all

With the right colours, any combination of the hexagon and trapeze creates a striking, interesting and unique result. A multitude of SHAPES in CANVAS can evoke a particular effect, while the same pattern in TRADITION shades creates a completely different look.

The possibilities are endless. One thing is certain: SHAPES allows you to create a floor that completely suits your space.
