R-EVOLUTION & NEW RENEGADE

Bloq presents **R-EVOLUTION** & **RENEGADE** a collection designed to bring the energy of natural movement into stylish office and hospitality spaces.

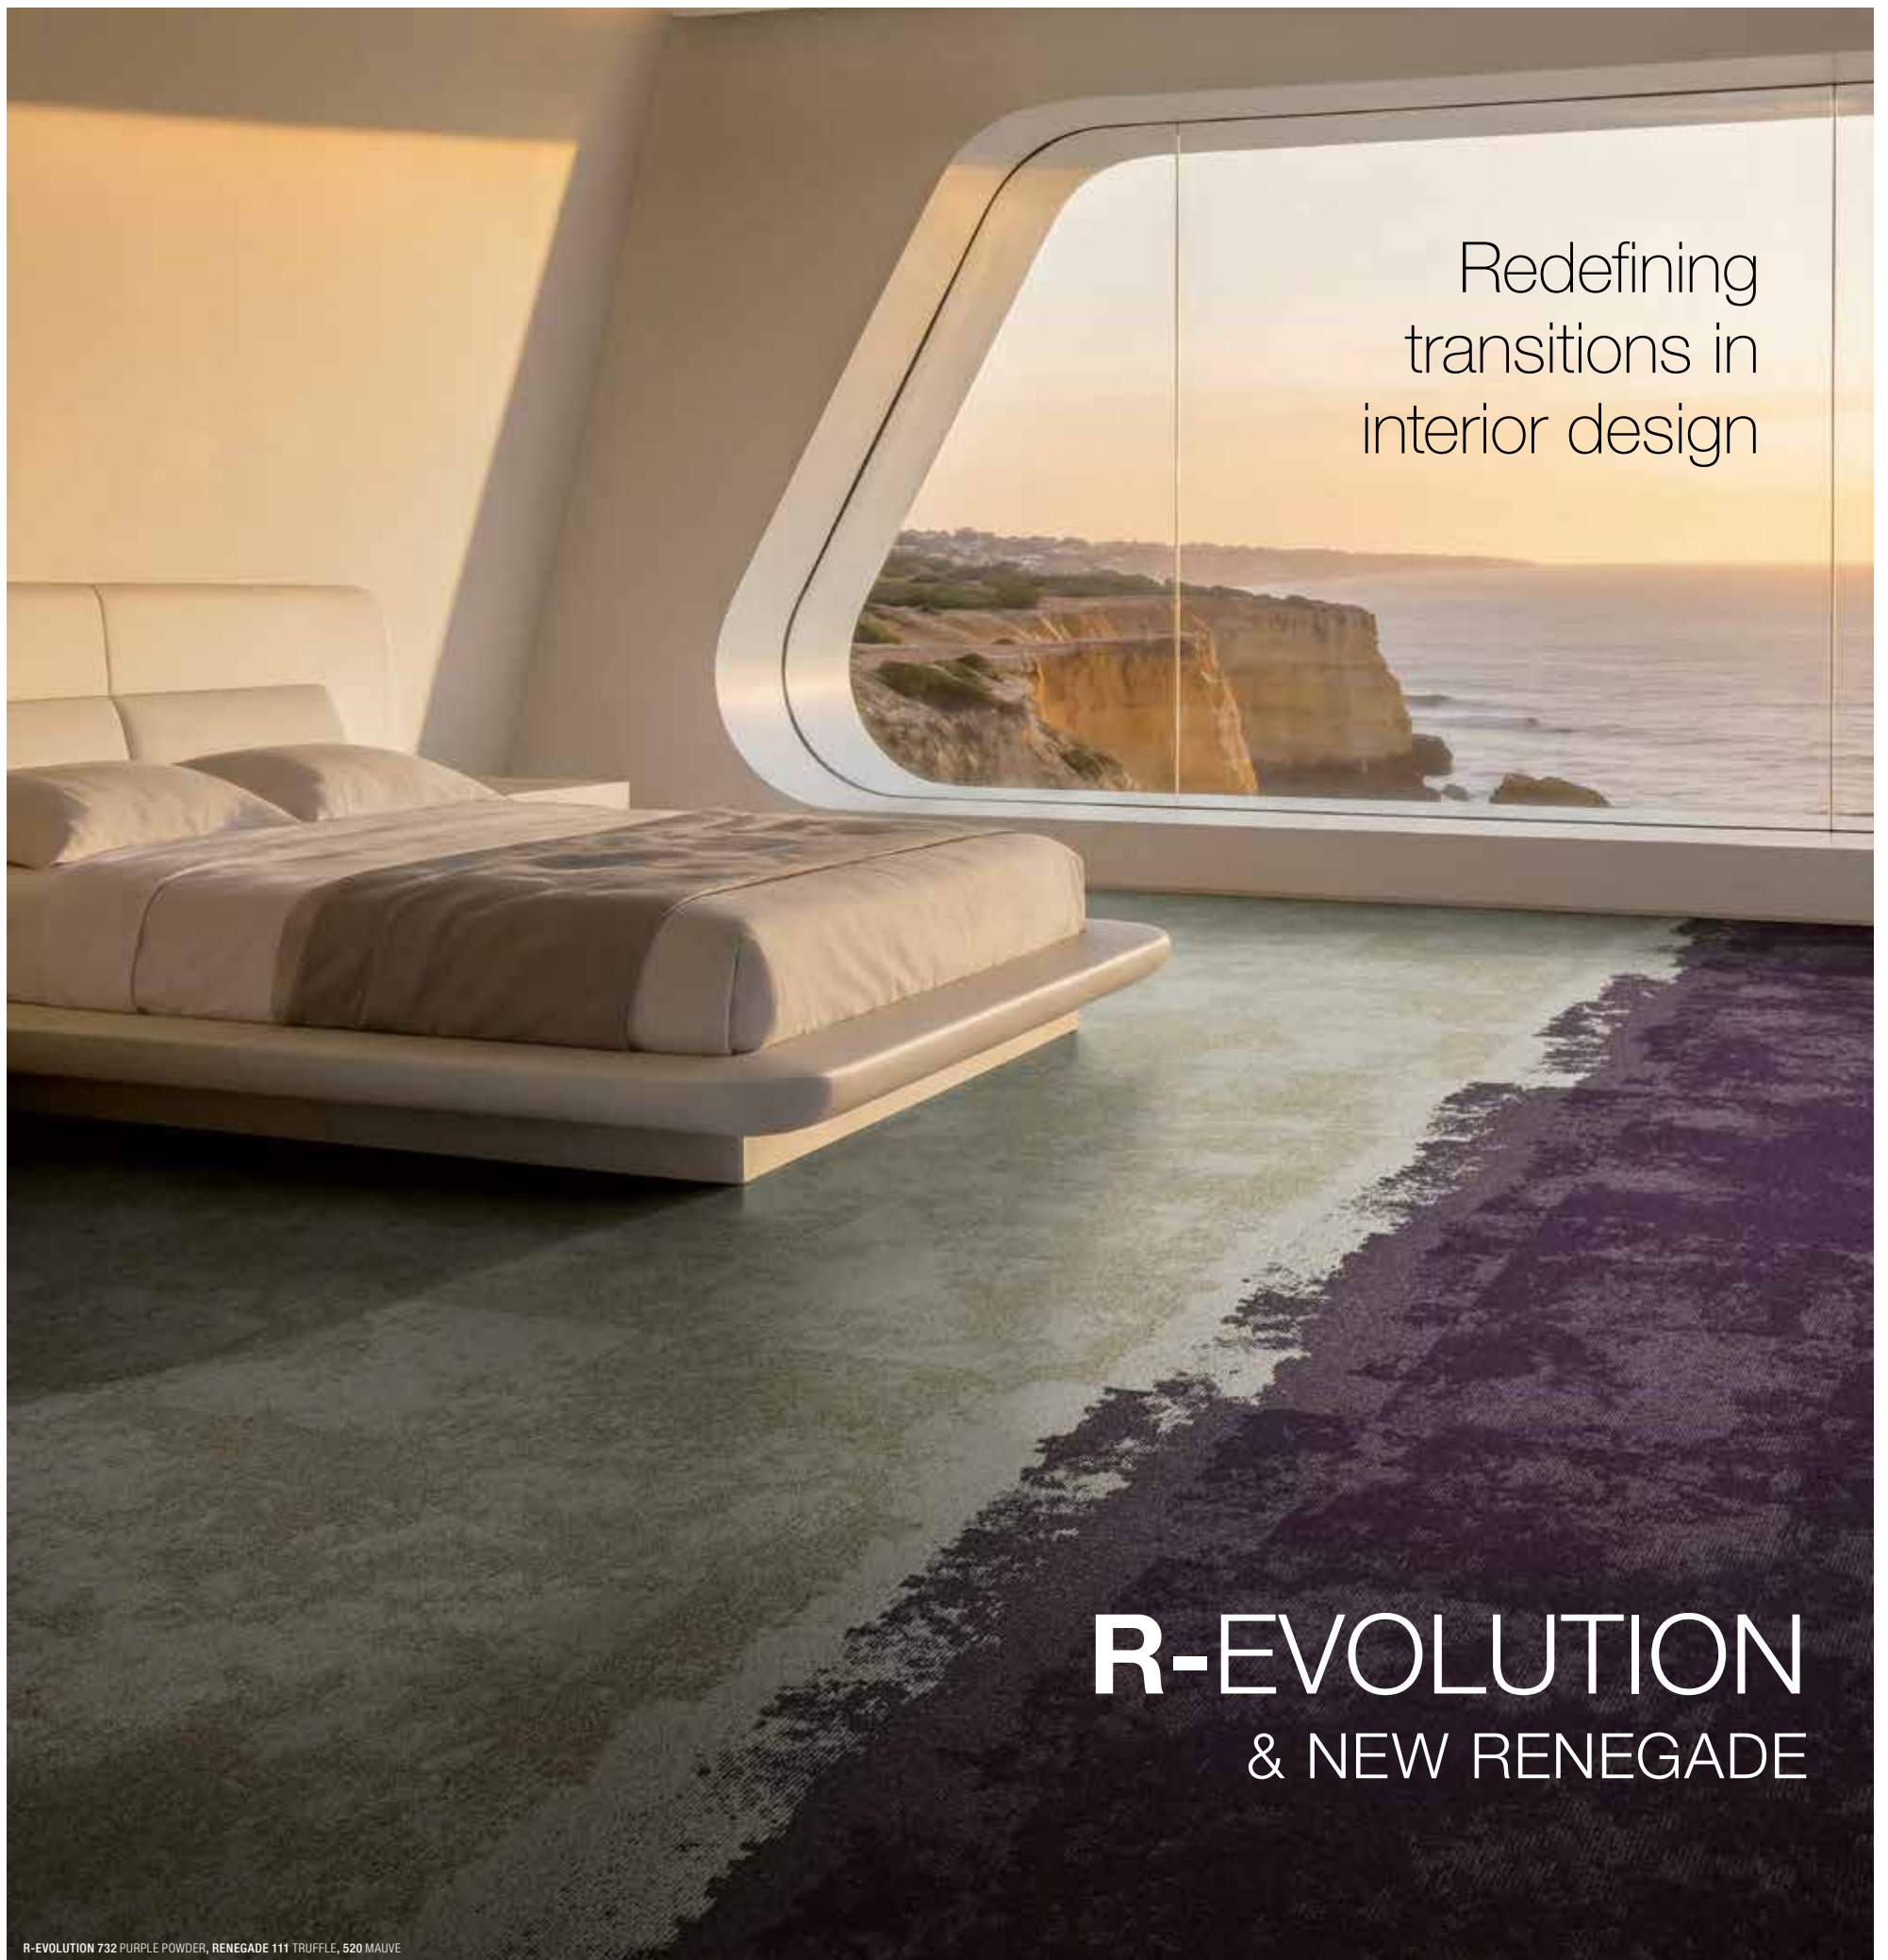

PAGE 2

OTHER SHAPES

SHAPES introduces two new tile options: **HEXAGON** and **TRAPEZE**. Alongside the standard 50x50 square tiles and 25x100 planks, these polygonal shapes open up countless design possibilities.

R-EVOLUTION & NEW RENEGADE

Redefining transitions in interior design

Bloq presents **R-EVOLUTION & RENEGADE** a collection designed to bring the energy of **natural movement** into stylish office and hospitality spaces.

This is part of **The Binary collection**, which features modern patterns created with light and dark colour combinations (binary). Living and working environments have never been so closely connected.

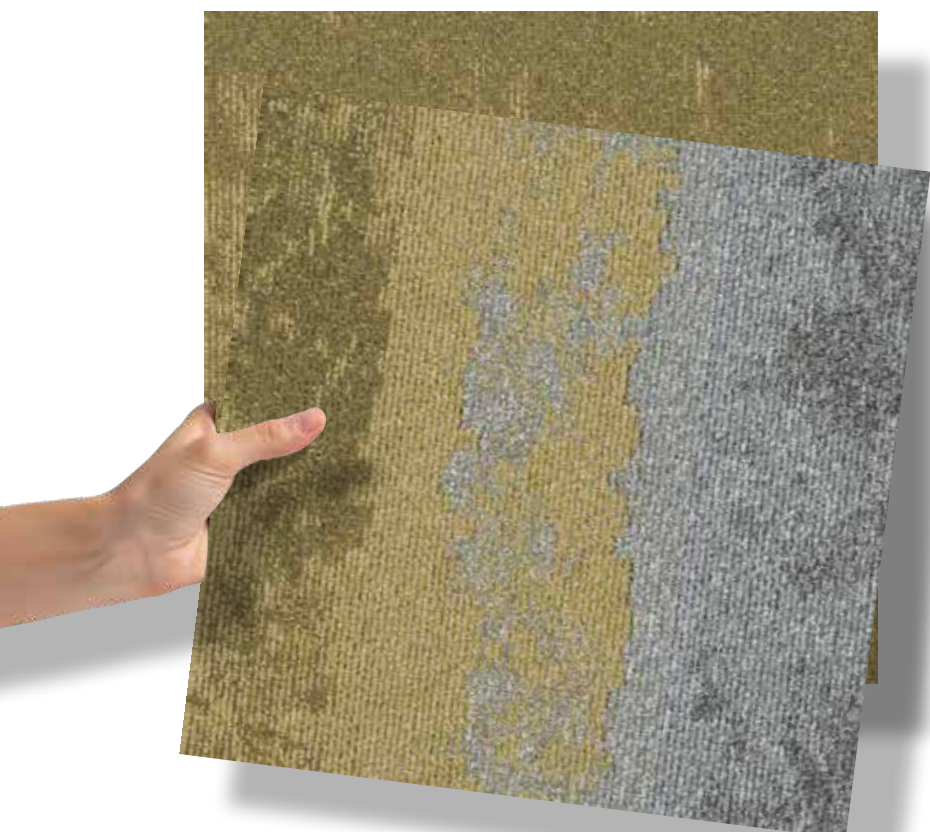

R-EVOLUTION 726 EARTHY GROUND, RENEGADE 907 IRON, 945 EBONY

Inspiration is everywhere

Inspired by aerial views of the **coastline**, where waves meet sand and rhythm blends into calm, the collection captures a continuous interplay of motion and tranquility.

motion & tranquility

R-EVOLUTION 721 LIME GREY
RENEGADE 224 CURRY

PLAIN COLOURS

RENEGADE is a 50×50 cm tile with a soft, cloud-like design that brings a sense of calm. It comes in **15 sophisticated tones**, with two gentle shades that create a dreamy, ever-unique pattern. The floor feels light, elegant and timeless, almost like walking on clouds.

TRANSITION TILES

R-EVOLUTION creates a natural transition between two colours within a space. Available in **12 gradient tones**, it brings gentle colour changes, helps define areas and adds architectural depths to the space much like tidal lines connect the sea and shore, without clear borders.

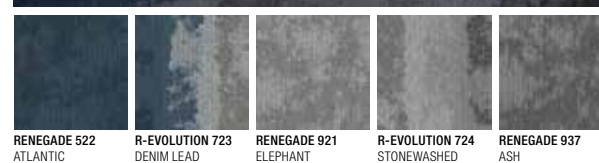

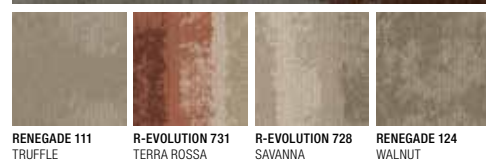

Check the complete colour palette of **RENEGADE** and **R-EVOLUTION** on the **BLOQ** website www.bloq.nl

Bringing the outdoors inside

The R-EVOLUTION-RENEGADE carpet tile collection creates a natural flow between outdoor and indoor spaces. Their subtle patterns and gentle colour changes ensure **smooth, elegant transitions** across the floor.

By guiding movement and gently marking different areas, the collection adds calm, cohesion, and a sense of natural balance to modern office and hospitality spaces.

Used in modern buildings and nature-inspired spaces worldwide, R-EVOLUTION proves itself as a versatile design tool for creating strong, **future-focused interiors**.

EXPERIMENT WITH
DOUBLE TRANSITIONS

Create your own flow

Together, R-EVOLUTION & NEW RENEGADE offer **visual harmony** and a calm sense of movement to any professional interior.

A collection that brings a sense of flow, defines space and lets every floor show the quiet strength of natural elegance.

Other SHAPES

HEXAGON & TRAPEZE

SHAPES introduces two new tile options: **HEXAGON** and **TRAPEZE**. Alongside standard square tiles (50×50 cm) and planks (25×100 cm), these polygonal shapes unlock **endless design possibilities**, used individually or combined to create striking layouts.

Develop unique patterns through mathematical repetition or follow your creative intuition, using colours from across all our collections. They work especially well in the solid hues of CANVAS, SOLACE and TRADITION.

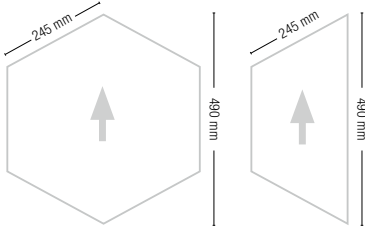

CANVAS HEXAGON 220, 310, 225, 140, 970, 935

SPECIFICATIONS
